Impact on score ●●●○

↗ **63**/100

Environment | Policies

Impact on score ●●●●

↗ **75**/100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company's intention to reduce impact, mitigate risk or improve performance.

Strengths

- Quantitative objectives set on energy consumption & GHGs
- Comprehensive policy on a majority of environmental issues
- Environmental policy on product end-of-life
- Environmental policy on energy consumption & GHGs
- Environmental policy on air pollution
- Environmental policy on water
- Environmental policy on materials, chemicals & waste

Improvement areas

- Medium priority Inconclusive documentation for policies on product use

Environment | Endorsements

Impact on score ●○○○

→ **75**/100

Endorsements are your company's public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Strengths

Endorsement of the United Nations Global Compact (UNGC)

Environment | Measures Impact on score ●●●●

● → 50/100

Measures are your company's actions to support your sustainability policies and commitments.

Strengths

Energy and/or carbon audit

Reduction of internal wastes through material reuse, recovery or repurpose

Provision of service parts, diagnostic tools, or maintenance programs to support product repair

Actions to prevent emissions of atmospheric pollutants and other environmental nuisances (e.g. noise, odor, vibration, road and light)

Other actions to manage water efficiency or wastewater discharge

Provision of information on efficient use, storage, and maintenance to extend product life

Purchase and/or generation of renewable energy

Improvement of energy efficiency through technology or equipment upgrades

Improvement areas

Low priority No supporting evidence of actions regarding environmental impacts from product or packaging end-of-life

Low priority No supporting evidence of actions regarding hazardous materials

Environment | Certifications Impact on score ●●●○

● → 100/100

Certifications confirm your compliance with international standards (for example, ISO 14001, ISO 45001, ISO 37001, SA8000 or FSC Chain of Custody). They must be issued by an external certification body.

Strengths

ISO 14001 certified

Improvement areas

Medium priority Environmental management system certification covers between 26% and 50% of the assessed scope

Environment | Coverage Multiplying factor

● 50/100

Coverage means the level of deployment of measures and certifications throughout your company. It's a multiplying factor. The higher it is, the higher score will be given to the Measures and Certifications indicators.

Improvement areas

Medium priority Supporting documents show a medium level of coverage of environmental actions or certification throughout company operations

Environment | Reporting Impact on score ●●●○

● ↗ 50/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

Reporting on total gross Scope 3 GHG emissions
Total gross Scope 3 GHG emissions reporting value confirmed in supporting documentation
Reporting on total gross Scope 1 GHG emissions
Reporting on total gross Scope 2 GHG emissions (market or location based)
Reporting in accordance with ESRS Set 1
Standard reporting on environmental issues
Company reports to CDP
Reporting on total gross Scope 3 downstream GHG emissions
Reporting on total amount of renewable energy consumed
Reporting on total energy consumption
Total gross Scope 3 downstream GHG emissions value confirmed in supporting documentation
Total gross Scope 2 reporting value confirmed in supporting documentation
Total gross Scope 1 reporting value confirmed in supporting documentation
External assurance or verification of sustainability reporting
Materiality analysis in sustainability reporting
Declares none of the sites/operations located in or near biodiversity-sensitive areas (not verified)

Improvement areas

Low priority	No supporting evidence of reporting on the total weight of non-hazardous waste
Low priority	No supporting evidence of reporting on the total weight of waste recovered
Low priority	No supporting evidence of reporting on the total weight of hazardous waste
Low priority	No supporting evidence of reporting on the total weight of air pollutants
Low priority	No supporting evidence of reporting on the total amount of water recycled and reused
Low priority	No supporting evidence of reporting on the total water consumption
Low priority	No supporting evidence of reporting on the percentage of WEEE collected out of the total EEE placed on the market

Environment | 360° Watch

Impact on score ●●●●

● → 50/100

The 360° Watch Findings indicator is scored based on the data we gather by scanning thousands of sources in the public domain. This allows us to get a broader overview of your company's sustainability management.

Improvement areas

Medium priority	The 360° Watch has identified at least one significant adverse report regarding materials, chemicals and/or waste.
Medium priority	The 360° Watch has identified at least one significant controversy, fine or penalty regarding environmental issues in the last five years (see news with red downward arrow in the 360° Watch section).

● 25/100

Coverage means the level of deployment of measures and certifications throughout your company. It's a multiplying factor. The higher it is, the higher score will be given to the Measures and Certifications indicators.

Improvement areas

- High priority** No supporting documents on the coverage of sustainable procurement actions throughout company operations or supplier base

Sustainable Procurement | Reporting

Impact on score ●●●○

● → 25/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

- Reporting on total gross Scope 3 upstream GHG emissions
- Total gross Scope 3 upstream GHG emissions value confirmed in supporting documentation
- Reporting in accordance with ESRS Set 1
- External assurance or verification of sustainability reporting
- Materiality analysis in sustainability reporting

Improvement areas

High priority

Insufficient reporting on sustainable procurement issues

Low priority

No information about use of tin, tantalum, tungsten, gold and/or their derivatives

The below disclaimers apply to you if you have no contractual relationship with EcoVadis:

1. This Scorecard has a validity of twelve (12) months from the issue date. The rating and this Scorecard have been prepared based on information provided by the rated company and in accordance with best industry practices and EcoVadis methodology, which may differ from those used by other companies conducting similar assessments. EcoVadis disclaims any liability for any actions and/or decisions taken by a third party, including any investment decision, based on the ratings and/or this Scorecard.
2. This Scorecard is based on the disclosed information and news resources available to EcoVadis at the time of assessment. Should any information or circumstances change materially during the period of the Scorecard validity, EcoVadis reserves the right to place the Scorecard on hold and, if considered appropriate, to re-assess and possibly issue a revised Scorecard.
3. This Scorecard is the intellectual property of EcoVadis and must not be: (i) copied, modified, translated, published, reproduced and/or (ii) used as part of or in connection with any other CSR/ESG assessment, unless agreed otherwise in a written agreement signed with EcoVadis.
4. This Scorecard is the confidential information of EcoVadis. Unless agreed otherwise in a written agreement signed with EcoVadis, this Scorecard and the rating must not be used by a third party as part of or in connection with any activity related to revenue generation and shared any further; it may be used only for a third party's internal purposes.
5. Only a Scorecard of a rated company having a Select subscription can be used for the purpose of ESG - linked loans and similar products offered by any financial institution outside of the EcoVadis solution.
6. The rating and this Scorecard have been prepared based on information provided by the rated company and in accordance with best industry practices and EcoVadis methodology, which may differ from those used by other companies conducting similar assessments. EcoVadis disclaims any liability for any actions and/or decisions taken by a third party, including any investment decision, based on the ratings and/or this Scorecard.
