

PALFINGER PISTOL GRIP REMOTE CONTROL

Simplify Operation. Improve Safety. Maximize Uptime.

The PALFINGER Pistol Grip remote control enables operators to operate all crane functions remotely by offering comfortable, single-handed operation in a rugged, weatherproof handset design.

FEATURES & SPECIFICATIONS

- Standard functions: engine start/stop, high idle, compressor on/off, crane boom tip lights, horn
- Color display shows current crane information and overload status at a glance
- Easy to use crane function toggle switch with proportional trigger
- Rugged weatherproof Pistol Grip enclosure allows the unit to operate worry free in harsh weather conditions
- Provides a robust link with SmaRT base units in congested radio environments
- Four handle-embedded magnets allow the remote to be securely attached to ferrous surfaces, helping prevent misplacing the unit while not in use
- Four status/diagnostic LEDs
- Powered by four AA cell batteries
- Approximate battery life: 175 to 200 hours
- Glove-accessible design
- Auxiliary umbilical connection standard

PROBLEM TO BE SOLVED	FEATURE ENABLED	BENEFIT
Crane stops working	Overload status displayed on screen	Operator immediately sees which function is overloaded to mitigate the problem
Operator walks back and forth to turn on vehicle engine or compressor	Integrated switches on remote to turn equipment on/off	No wasted time going to the vehicle cab or crane compartment
Harsh working environments can damage sensitive equipment	Reinforced polymer housing with IP67 seals and switches	Reduced downtime and remote failures due to environmental conditions
Remote malfunctions due to dead batteries	Four (4) AA replaceable batteries and 10min auto-power down from inactivity	175hr+ working time and easy/quick battery change out
Transmitter and receiver stop communicating	Powered umbilical / tether connection standard	Allows direct connection to base unit
Misplacing unit while not using	Four (4) handle-embedded magnets	Operator can stick remote to any steel/ferrous surface near work sight
