SMART EYE

Knowledge on demand –
thanks to the service tool from PALFINGER!

Connected to our global Service Network through state-of-the-art communication methods for your quickest possible support. Wherever the service technicians are located, with the PALFINGER Smart Eye technology we are always right by their side. Thanks to an audio-visual livestream our know-how and expertise can be shared in real-time. Under all weather conditions, the Smart Eye camera enables us to see what is happening on site and together we will find the right solution.

**Lets maximize your uptime and
minimize costs through the digital support
of the Smart Eye Tool.**
