

IVECO

P 200 TXE-E SMART PLUS

NEW

IN PRODUCTION

DESCRIPTION

- Advanced performance telescopic platform, mounted on a 3.5 tonne truck.
- Multifunction electric controls for greater precision, speed, and manoeuvring comfort
- Vertical stabilisation with frontwards extending outriggers which compensate for uneven and sloping ground
- Platform with three stabilisation possibilities for each working condition:
 1. Within the outer vehicle limits: for maximum compactness overall within small spaces
 2. With front crossmembers extended: for maximum performance when working in elevated positions
 3. Partial stabilisation: for maximum performance with minimum overall dimensions.

STANDARD

- 12V socket on basket
