

IVECO

P 240 AXE- E SMART PLUS

IVECO 35 S 14

NEW

AVAILABLE

SPECIFICATION

- Compact double articulated aerial platform for work in tight spaces, mounted on a 3.5 t truck.
- The double pantograph unit guarantees great versatility and the ability to move over in elevated positions.
- Multifunction electric controls for greater precision, speed, and manoeuvring comfort
- Vertical stabilisation with frontwards extending outriggers which compensate for uneven and sloping ground
- Platform with three stabilisation options for all working conditions:
 1. Within the outer vehicle limits: for maximum compactness overall within small spaces
 2. With front crossmembers extended: for maximum performance when working in elevated positions
